SIP Authority

Section 1001.42(18), Florida Statutes (F.S.), requires district school boards to annually approve and require implementation of a new, amended, or continuation SIP for each school in the district which has a school grade of D or F; has a significant gap in achievement on statewide, standardized assessments administered pursuant to s. 1008.22 by one or more student subgroups, as defined in the federal Elementary and Secondary Education Act (ESEA), 20 U.S.C. s. 6311(b)(2)(C)(v)(II); has not significantly increased the percentage of students passing statewide, standardized assessments; has not significantly increased the percentage of students demonstrating Learning Gains, as defined in s. 1008.34, and as calculated under s. 1008.34(3)(b), who passed statewide, standardized assessments; has been identified as requiring instructional supports under the Reading Achievement Initiative for Scholastic Excellence (RAISE) program established in s. 1008.365; or has significantly lower graduation rates for a subgroup when compared to the state's graduation rate. Rule 6A-1.098813, Florida Administrative Code (F.A.C.), requires district school boards to approve a SIP for each Department of Juvenile Justice (DJJ) school in the district rated as Unsatisfactory.

Below are the criteria for identification of traditional public and public charter schools pursuant to the Every Student Succeeds Act (ESSA) State plan:

Additional Target Support and Improvement (ATSI)
A school not identified for CSI or TSI, but has one or more subgroups with a Federal Index below 41%.

Targeted Support and Improvement (TSI)
A school not identified as CSI that has at least one consistently underperforming subgroup with a Federal Index below 32% for three consecutive years.

Comprehensive Support and Improvement (CSI)
A school can be identified as CSI in any of the following four ways: 1. Have an overall Federal Index below 41%; 2. Have a graduation rate at or below 67%; 3. Have a school grade of D or F; or 4. Have a Federal Index below 41% in the same subgroup(s) for 6 consecutive years.

ESEA sections 1111(d) requires that each school identified for ATSI, TSI or CSI develop a support and improvement plan created in partnership with stakeholders (including principals and other school leaders, teachers and parent), is informed by all indicators in the State's accountability system, includes evidence-based interventions, is based on a school-level needs assessment, and identifies resource inequities to be addressed through implementation of the plan. The support and improvement plans for schools identified as TSI, ATSI and non-Title I CSI must be approved and monitored by the school district. The support and improvement plans for schools identified as Title I, CSI must be approved by the school district and

Department. The Department must monitor and periodically review implementation of each CSI plan after approval.

The Department's SIP template in the Florida Continuous Improvement Management System (CIMS), https://www.floridacims.org, meets all state and rule requirements for traditional public schools and incorporates all ESSA components for a support and improvement plan required for traditional public and public charter schools identified as CSI, TSI and ATSI, and eligible schools applying for Unified School Improvement Grant (UniSIG) funds.

Districts may allow schools that do not fit the aforementioned conditions to develop a SIP using the template in CIMS.

The responses to the corresponding sections in the Department's SIP template may address the requirements for: 1) Title I schools operating a schoolwide program (SWD), pursuant to ESSA, as amended, Section 1114(b); and 2) charter schools that receive a school grade of D or F or three consecutive grades below C, pursuant to Rule 6A-1.099827, F.A.C. The chart below lists the applicable requirements.

SIP Sections	Title I Schoolwide Program	Charter Schools
I-A: School Mission/Vision		6A-1.099827(4)(a)(1)

II-F: Progress Monitoring	ESSA 1114(b)(3)

III-C: Other SI Priorities		6A-1.099827(4)(a)(5-9)
VI: Title I Requirements	ESSA 1114(b)(2, 4-5), (7)(A)(iii)(I-V)-(B) ESSA 1116(b-g)	

Note: Charter schools that are also Title I must comply with the requirements in both columns.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Department encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

I. School Information

School Mission and Vision

Provide the school's mission statement.

We are a high-achieving, student focused community of learners exhibiting passion, commitment and unity. Our goal is to make a difference for our students and the community.

Provide the school's vision statement.

Why?
Fulfill the promise of preparing students for College, Career, and Life.

What?
Provide students with a rigorous and relevant educational experience that maximizes student engagement and is founded in meaningful relationships.

How?
Focus PLCs on alignment of curriculum, best practices, and common assessments.
Provide differentiated support for intervention and remediation.
Strengthen academic, social, emotional, and behavioral readiness levels of students as 21st century learners.
Monitor progress through data analysis of key indicators.

School Leadership Team, Stakeholder Involvement and SIP Monitoring

School Leadership Team

For each member of the school leadership team, select the employee name and email address from the dropdown. Identify the position title and job duties/responsibilities as it relates to SIP implementation for each member of the school leadership team.**:**

Name	Position Title	Job Duties and Responsibilities
Moon, Vanessa	Principal	
Smith, James	Assistant Principal	
Stacey, Suzanne	Assistant Principal	
Li-Wong, Yan	Assistant Principal	
Lipa, Deanna	Assistant Principal	

Stakeholder Involvement and SIP Development

Describe the process for involving stakeholders (including the school leadership team, teachers and school staff, parents, students (mandatory for secondary schools) and families, and business or community leaders) and how their input was used in the SIP development process. (ESSA 1114(b)(2))

Note: If a School Advisory Council is used to fulfill these requirements, it must include all required stakeholders.

We collect input from staff members, share with the leadership team for additional input, finally we share with our School Advisory Council to get input from our community stakeholders. Leadership, teachers and students are represented on the School Advisory Council.

SIP Monitoring

Describe how the SIP will be regularly monitored for effective implementation and impact on increasing the achievement of students in meeting the State's academic standards, particularly for those students with the greatest achievement gap. Describe how the school will revise the plan, as necessary, to ensure continuous improvement. (ESSA 1114(b)(3))

Leadership will visit the SUP at each monthly meeting, utilizing current assessment data to analyze progress towards our goals. The leadership team will then work with PLC to make adjustments to instruction to ensure student mastery of the standards.

Each "blank" cell indicates the school had less than 10 eligible students with data for a particular component and was not calculated for the school.

On April 9, 2021, FDOE Emergency Order No. 2021-EO-02 made 2020-21 school grades optional. They have been removed from this publication.

III. Planning for Improvement

Data Analysis/Reflection
Answer the following reflection prompts after examining any/all relevant school data sources.

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Algebra 1

Possible contributing factors include:
Teacher with the most number of algebra classes left mid year.
Historical testing trends of students
Administering new test

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Geometry decreased by 26% from the prior year.

Possible contributing factors include:
This was the first year that we eliminated the liberal arts course between algebra and geometry. All students went straight from algebra into geometry.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Algebra 1 showed the biggest gap compared to the state average at 37% below.

Possible contributing factors include:
Teacher with the most number of algebra classes left mid year.
Historical testing trends of students
Administering new test

Which data component showed the most improvement? What new actions did your school take in this area?

Biology showed 0 growth but 100 more students were tested last year compared to the previous year. Biology was an area of focus from the previous year. PLC structures were put in place and monitored throughout the year.

Reflecting on the EWS data from Part I, identify one or two potential areas of concern.

Algebra 1 and Geometry

Rank your highest priorities (maximum of 5) for school improvement in the upcoming school year.

CSI, TSI and ATSI Resource Review
Describe the process to review school improvement funding allocations and ensure resources are allocated based on needs. This section must be completed if the school is identified as ATSI, TSI or CSI in addition to completing an Area(s) of Focus identifying interventions and activities within the SIP (ESSA 1111(d)(1)(B)(4) and (d)(2)(C).

As a system, the Pasco district is engaging in a continuous improvement process always, and annually, we have a more focused reflection to look forward to the next coming school year. During the year, each school reflects and responds to data at the minimum quarterly, and the system engages in regular Calibration Meetings throughout the school year. Additionally, after reflecting on current mid-year data, the system engages in Comprehensive Needs Assessment (CNA). During this time, each school enters a needs assessment process that sets the stage for future planning and includes analysis of student performance,

analysis of stakeholder feedback, self-assessment, and site visits. Subsequently, this analysis from each school drives the district planning process and the annual approach to Planning Forward to respond our schools, as well as the allocation of resources in an intentional manner based on the needs identified for each school.

Student Performance is analyzed by reviewing current and trend data by subgroup and school. Data sources include Florida BEST assessments, Statewide Science Assessment, district developed quarterly check results where applicable, and NWEA MAP Growth data. Stakeholder feedback is analyzed by reviewing results from both the student and staff Gallup polls, staff and parent surveys and focus groups.

Multiple tools are used to conduct a self-assessment. Each school and the district use the Cognia Standards for systems accreditation and each school and the district reviews and evaluates its progress toward goals set using the Best Practices in Inclusive Education (BPIE). Instructional Practice Observations, Professional Learning Community (PLC) rubrics, and Tiers of Support rubrics are also completed by each school to gain insight into instructional and support practices.

An Assistant Superintendent, Multi-Tiered System of Support (MTSS) Specialist, and District personnel engage in individual site visits with school leadership at each school after the school team has completed the first part of their analysis to gain insight into the school's unique needs as well as identify foci for school improvement efforts and needs for implementing the plan.

The conclusion of the CNA results in the identification of the root causes of barriers, the development of a school improvement plan to overcome/reduce barriers to improvement, the allocation of supports needed to implement each school's improvement plan and serves as the foundation for Planning Forward. Schools analyze their plans and basic allocations that will be provided based on district formulas to determine needs for additional allocations, resources and supports. With the school assistant superintendent and the school support team, each school then carefully aligns the additional available funds through Title 1 and/or UniSIG to specific strategies for improvement aimed at reducing barriers to achievement and closing learning gaps for underperforming student groups. This plan for use of additional funding is regularly monitored by the district support team, and is adjusted based on data, including student progress monitoring results, as applicable through the year, with the support of the state BSI team and the Department.

Area of Focus Description and Rationale
Include a description of your Area of Focus (Instructional Practice specifically relating to Reading/ELA) for each grade below, how it affects student learning in literacy, and a rationale that explains how it was identified as a critical need from the data reviewed. Data that should be used to determine the critical need should include, at a minimum:

- The percentage of students below Level 3 on the 2022 statewide, standardized ELA assessment. Identification criteria must include each grade that has 50 percent or more students scoring below level 3 in grades 3-5 on the statewide, standardized ELA assessment.

- The percentage of students in kindergarten through grade 3, based on 2021-2022 end of year screening and progress monitoring data, who are not on track to score Level 3 or above on the statewide, standardized ELA assessment.

- Other forms of data that should be considered: formative, progress monitoring and diagnostic assessment data.

Grades K-2: Instructional Practice specifically relating to Reading/ELA

Grades 3-5: Instructional Practice specifically related to Reading/ELA

Measurable Outcomes
State the specific measurable outcome the school plans to achieve for each grade below. This should be a data-based, objective outcome. Include prior year data and a measurable outcome for each of the following:

- Each grade K -3, using the coordinated screening and progress monitoring system, where 50 percent or more of the students are not on track to pass the statewide ELA assessment;

- Each grade 3-5 where 50 percent or more of its students scored below a Level 3 on the most recent statewide, standardized ELA assessment; and

- Grade 6 measurable outcomes may be included, as applicable.

Evidence-based Practices/Programs

Description:
Describe the evidence-based practices/programs being implemented to achieve the measurable outcomes in each grade and describe how the identified practices/programs will be monitored. The term "evidence-based" means demonstrating a statistically significant effect on improving student outcomes or other relevant outcomes as provided in 20 U.S.C. §7801(21)(A)(i). Florida's definition limits evidence-based practices/programs to only those with strong, moderate or promising levels of evidence.

- Do the identified evidence-based practices/programs meet Florida's definition of evidence-based (strong, moderate or promising)?

- Do the evidence-based practices/programs align with the district's K-12 Comprehensive Evidence-based Reading Plan?

- Do the evidence-based practices/programs align to the B.E.S.T. ELA Standards?

NA

Rationale:
Explain the rationale for selecting practices/programs. Describe the resources/criteria used for selecting the practices/programs.

- Do the evidence-based practices/programs address the identified need?

- Do the identified evidence-based practices/programs show proven record of effectiveness for the target population?
